

Glockie

AJ Tracey

Got your career on my wrist
Walk in the club, see my name on the list
Without me these rappers wouldn't exist
Drive with the Glockie, we're taking the risk
I'm in my Birkin, I'll Birkin a bitch
Start with the right in the kitchen and switch
Why they keep chasing? They don't get the jist
Back at A Jewellers, I couldn't resist

Got your career on my wrist
Walk in the club, see my name on the list
Without me these rappers wouldn't exist
Drive with the Glockie, we're taking the risk

Back at A Jewellers, I couldn't resist

I'm walking in Harrods
I smell like United Arab Emirates
This Oud, I had to spray it generous
My niggas, Titanaboa venomous, ya dig?
We driving down Hanover Square with the stick
Nikey my tech or I'm dripping in Rick
I'm the same dude when I'm not with the clique
We air out the caliber, that do the trick
I left that show and got neck in the coupe
She saw me diamonds and asked what I do
I ain't a rapper, I'm part of a group
And all of my niggas are stars in the troupe
Took off in a rocket, I'm over the moon
Wake up at 8 and I'm sleeping at noon
Did take a L, I'll be over it soon
You know me, I'm hustling June till it's June
This here a new plate, this shit cost a lot
I pulled out that Lambo, came straight off the lot
Beefing these numbers, you're losing the plot
Babe, don't watch him, he's just mad he got got
My set got teet and they air it out
Drop a pin, we'll pull up at your whereabouts
Spin the block in a dingers and wear it out
Don't be spitting some shit I don't care about

Got your career on my wrist
Walk in the club, see my name on the list
Without me these rappers wouldn't exist
Drive with the Glockie, we're taking the risk
I'm in my Birkin, I'll Birkin a bitch
Start with the right in the kitchen and switch
Why they keep chasing? They don't get the jist

These niggas pussy, they tweet, they don't want the beef
Them boy dere avoiding the teef
Blow all these runts 'cause I need the relief
She's good on the outside but bad underneath
Throw me the pussy, I'm tearing it up
Open it wide, you ain't sharing enough
Copped me the skelly with gems in the cuff
She came on my wrist now the shimmer is buff
I whip the Merc like a go-kart
Me and you just ain't the same
You spent like 3 on your car and put 3 on your wrist
But my sofa, it cost me the same
Fuck all these rappers, this shit's just a game
Double my cash and I'll give you my fame
Ex-friend a rat, he got took out the frame
Can't hang with no one that wan give up a name
Still in Chanel but my drop ain't in store
My boy bought a vest and I asked him what for
My opps ain't on nuffin', they never perform
I'll park off a choppa, we're ready for war
20 popped
Come like I hit the scene with a belly flop
All these colours, my diamonds are jelly tots
Cut them off, I swear I ain't got any thots
(I ain't got any thots)

Got your career on my wrist
Walk in the club, see my name on the list
Without me these rappers wouldn't exist
