My granny said music don't pay  
So granny had to go and put an Audi on my chains  
I was doing missions in the rain  
And now I'm steady pissing out Henny and champagne  
Music is a money campaign  
You'll get smoked for moving funny, I was bummy back day  
And now I'm tryna make the tracks pay  
No more running through the gutter like my name was Max Payne  
Take my girl shopping, streams still popping  
That means anything that she's grabbing, you know I'm copping  
Sevaqk straight dropping, killed the beat, coffin  
Look inside my calendar, bookings just like a boffin  
And I'm still putting liquor in my lemonade  
Romantic when I'm liquored, I'm a serenade  
I ain't cuffing on these yatties, I'm a renegade  
I'm picky with the pengers I'm picking now that I'm getting paid

This girl was tryna diss my fashion  
This is DSQ and my bits are matching  
I can't walk with her on road, but this girl's a bad ting  
And her pink gloss lips and my kicks are clashing  
I put six on the petrol, I ain't got a car, though  
Couple man sent for me, never heard a bar, though  
I'm from West London where they ship the cargo  
And my Royce on the left like my name was Marco  
West 10 baby, tryna get the pounds in  
Moncler coat cost a mountain, plus it's got a mountain  
All up on the front of the jacket  
I know man in tennis chains that will swing round a racket  
Beef? Fam, I back it; tool? Man'll pack it  
I told man I'm quarterback already, let me sack it  
Me, I've got this aura that these other rappers lacking  
You're lipsing up a rippers, I'll snap her and blow her back in
