

Skipper Freestyle

AJ Tracey

Looney
Let's get it
Ay
Lah

Look, I'm the skipper on the pitch nigga, Vidić
Chasing down a snitch, all my niggas playing
Quidditch
Get yourself a band and you niggas are never with it
Everything you said on your album, I done did it
If we're getting beef then a nigga will slump with it
Cah my cousin's got the clutch and he's bringing the pump with it
Out here in the field but [?] jumping him
I'm tryna make a milli, he's up in the cunt licking
Batter any beat with my bruddas who dump riddims
Eating for a minute, these nitties all stay itching
Snitches in the station reporting, they stay fibbing
If he wanna try out, my nigga youngen will tre flip him
My akhi be gear shifting
Me I've got the bottle, my bruddas all stay piffing
Claiming that he's local, those phonies are still missing
Every time he see me that dickhead is still pissing
And I'm in and out my lane, I want my line popping
I ain't sitting round, I don't want my grind flopping
Shuffle donny's bread winnings, I'ma iPod him
I'm on a roll, silly pagans think I might stop him
I studied with the riddims, I'm a mic boffin
For the ice crown cake then I might top him
Good guys turned broke tryna save mum
Wanna pay the bills so they'll ride on and sly shot him
Supporters show love and man I'm grateful
Fuck views, I'd rather try and profit off an 8Ball
March to October, January to April
Big boy moves, all you pussy rappers stay small
Wanna hate on me? Fam well you can do that
Talk about me on the track and fam you'll get your crew slapped
Donnies wanna know about 'Where's he from and who's that?'
I always bring the drama when I'm spitting on a new track
I'm from the city where they hustle for some Nike Air
You ain't got the buzz to spend a lightyear
Staying with the super team, I don't need to fight fair
Help me break bread and if we're lucky then I might share
Baron Bailey, [?]
I'm back like I'm Gamma Lady
Blacker than [?]
Niggas all say they're wavy
Covering beats like gravy
Slim and I'm moving shady
Women I drive real crazy
Looney
