

## Summertime Shootout

AJ Tracey

If you wanna slide  
I gotta Rolls Royce sitting outside  
That's all the time  
Tryna provide  
Twenty fours, baby, I'm on the grind  
That's all the time  
And I can't let no dumb temptations  
Or imitations bring me down  
I won't let no confrontations  
Complications, ruin it now

So do you  
Just do you  
If you won't hold me down when I need you  
Do you  
Do you  
Just do you  
If you won't hold me down when I need you  
Do you

Take me in, take me in  
The lessons by yours truly are about to begin  
God handed me a L, I took it right on the chin  
Hit the canvas, got back up and now I'm hyped tryna swing  
If you love me like you say you do then lemme see  
I got two cups, I beg you come and drink this Hennessy  
'Cause I been going through it lately, I need energy  
Been stuck deep underwater like a sea anemone  
Since I got back up, got my platinum plaque up  
I been dunkin' on these pussies, got my Shaq attack up  
I been out there on my lonely, just a shank for back up  
So you can't ever talk 'bout static, we'll just have a man up  
Check this chocolate Rollie, baby, this a factory set  
I could still whip up a dinner if I had to re-set  
I praise the Lord for all he's done, he ain't abandoned me yet  
I'm in the stu, not on the blocka with my hand on a tek

If you wanna slide  
I gotta Rolls Royce sitting outside  
That's all the time  
Tryna provide  
Twenty fours, baby, I'm on the grind  
That's all the time  
And I can't let no dumb temptations  
Or imitations bring me down  
I won't let no confrontations  
Complications, ruin it now

So do you  
Just do you  
If you won't hold me down when I need you  
Do you  
Do you  
Just do you  
If you won't hold me down when I need you  
Do you

Check me out, check me out  
Through all these complications I could never be in doubt  
Man, I'll figure out, bro, I'm tripling down  
How can I complain? It's hot outside, there's women in town  
Either swim or you drown  
Need a mash? Brodies bringing it 'round  
It's G, Trace with the limited sound  
I was searching for an answer, baby, look what I found  
Nowadays I'm the big dog, I'm visiting pounds  
And on my niggas I can't stress it enough  
With less than a millie to your name, homie, you ain't pressuring us  
We turn opponents into nothing but dust  
I make this money off them losers, put it right into trusts  
And In West, we ball like Damien Duff  
I'm with a model, thin and pretty like Italian crust  
Tell them piggies, "Free my niggas from cuffs"  
Let 'em out, it's a must  
Until they're home finna kick up a fuss

Ooh, you know I need you  
I made it in the streets, I gotta feed you too  
I been tryna lock my heart, you got the key, boo  
Whatever you say I be like, "Me too"  
Me too, I need more  
But I'm useless, what you need me for?  
You went and left on me, had a detour  
Just hold me down when I need you  
Do you

So do you  
Just do you (Do you)  
If you won't hold me down when I need you  
Do you  
Do you  
Just do you  
If you won't hold me down when I need you  
Do you

Do you  
Do you  
If you won't hold me down when I need you  
Just do you  
Do you  
If you won't hold me down when I need you  
Just do you
