

(I'm working on dying)

Akira

My outlook's sunlight but clearer  
I'm the prince of the new-school era  
And achieve what I wanna but it's progress  
It's a process and I just get nearer  
I take risks every day like Yumeko  
Lemme know if we gotta shoot like Shearer  
I take risks every day like Yumeko  
And you know I was gonna blow I'm Akira  
My outlook's sunlight but clearer  
I'm the prince of the new-school era  
And achieve what I wanna but it's progress  
It's a process and I just get nearer  
I take risks every day like Yumeko  
Lemme know if we gotta shoot like Shearer  
I take risks every day like Yumeko  
And you know I was gonna blow I'm Akira

Would you believe?

I killed the shows overseas  
Spread the sound like a disease  
I brought the world to its knees  
Diamonds they jump in that freeze  
This watch cost a piece we still got the p's  
I dropped the top on the Lamb for the breeze  
It's paid out I can't do a lease  
And I wanted peace  
They wanted war and they got it  
Somebody show me his face and I'll bomb it  
I'm sick I stay through all my set-up like I'm vomit  
I'm nuttin' like them bro I'm totally different  
Alien missing I'm still on a mission  
I glisten and listen to comments  
Then piss on them  
Niggas say that I'm cappin'  
I'm not I'm still dissin'  
It's Sheller and Shelly  
I'm sippin' this tekky  
My telly is gassin' and smelly  
I've got murder all on my mind like I'm Melly  
I'm shootin' I'm wetty I'm splashin' these wellies, uh  
Look at my watch and I just see my wrist  
This 'ere a skelly lil bitch  
I know 'cause I ride with a stick like a witch  
You're pissed if you're close to a stick and they switched

Akira

I'm still working on dying  
It's live on your block and it's frying  
Come to the trench where the bullets are flying  
Trust, if I said it's not then I'm lying  
We ask a opp for a block he's denying  
I ain't put nuttin' in mine but I'm trying  
Rolling with demons, protected by angels  
I do this for all of the mums that are crying  
SK, SK, SK, SK  
All on my feet I don't rock nothin' else  
Might grab some more they'll go straight on the shelf  
Health, I traded that shit for the wealth  
I'm in Dishoom, gettin' some lunch  
Straight out the tube, check out the bunch  
Using your room, you was in cunch  
All of this ice, might get a hunch  
Rick with a capital  
Drop it like me I'm fanatical uh!  
Modern-day classical  
All of my outfits are nuttin' but magical  
I'm on a hunt won't be glad I'm an animal  
Unanimous, I'm the guy that made it glamorous  
Covered in water, I'm platypus  
We hit the track with the bells not a abacus  
I'm with a wifey in real life she fabulous

Akira
