

# 21 Roads

Aja

So many doors, but where the key?  
21 rows, anomalies  
In my destiny, yes I believe  
The only truth I know is what I see  
That waterworks of my soul  
My spirit guide me to meet my goal  
First it was to be loved  
Then it was to be whole  
Yes, I got hit where it hurts  
Life's a show, you can't rehearse, walk in  
Think, "I'ma kill it"  
Next thing you know, my hope's in a hearse  
Can't go back now, no reverse  
So I hop on the first verse  
To tell you 'bout my rebirth  
I thought I was strong, but I was weaker  
White flag up and I surrender, hands up  
Tired of the benders, getting hurt  
'Cause my heart tender, the truth is  
I need to control my temper, because  
I'm about to lose everything if I don't make a choice  
Then I won't ever know how to use my voice  
How to conquer, how to have a convo  
I don't need a vision, I need some rejoice  
So I open my closet  
It's been a long time since I made a deposit  
It's been a long time since I been told to stop it  
Been wearing a mass, expression says I got it  
Hitting the bottom, nothing to lose  
Better think quick, uh, what to do  
Disappear, wear all white for a year  
And get crowned

I don't wanna waste any time on those doors that are closed  
Gotta get past that, gotta get past that  
Ain't got no more time to invest in those who oppose  
I suppose that I gotta get past that

Conceptually adept, brain on next step  
Coming for your head, I'm your met tet  
Bonsoir, no, I ain't dead yet  
Still making moves, never on the get set  
I go, I'm so focused  
Working the hardest but no you ain't notice  
I'ma blossom, I'm a lotus  
Refreshed from a vibe that's bogus  
Yeah, you know this  
I don't fuck with the fallacies  
Facts backed up with analogies  
No lie, I only do reality  
I body the beat like anatomy  
Shine bright like the center of the galaxy, talking 'bout  
When the planets align  
Capricorn my horoscope sign, I'm smart with the dime  
While dressed to the nines, don't need to co-sign  
I do what I do and it be on my time

I don't wanna waste any time on those doors that are closed  
Gotta get past that, gotta get past that  
Ain't got no more time to invest in those who oppose  
I suppose that I gotta get past that

Gotta do right for me  
Gotta be in harmony  
I gotta be nice to me  
Be the best that I can be  
I'm gonna get high and see  
I'm living in a Odyssey  
I'm done with the lies, you see  
Gonna show what's inside of me  
No more of the hiding me  
Despite what they like in me  
I'm activating the fight in me
