

Decepticon

Aja

Stun them, [?]
Look like a bird, shit is custom
Hoes ain't move, so I had to dust them
Sweepin' goons if I don't trust them
That's when I hopped off the spaceship
Bitches career, it need a facelift
Fast and the furious, call it a space drift
So many stars chillin' in my bracelet
Me and my crew did a few invasions
When stars align, that's constellations
We bring the new age generation
Planet rock on this operation
Jetsons theme play when I hit the screenplay
Solo, these bitches never team-play
I think I'm an alien
Space Jam, I'm the Tasmanian
Tell my nigga Yoda to pass me a soda
E.T. came to deliver my quota
We in Arizona, drinkin' Coronas
Beam me up, cyber persona
Nanu-nanu, they never see it
UFO, they could never be it
Welcome, it's a odyssey
I am the space oddity

I'm taking off to the planets
Spaceship is gold, 24 carats
Four-door look like a Transformer
Decepticon, I'm a better performer
I be on Cybertron
You be on Autobot
It's not my fault I be touring
With the only solo spot

Got these bitches in a tenement
My house look like Fifth Element
They wanna hang to be relevant
I should make them my experiment
Big Bang like I'm Billy Ray
I turned his whole face to the Milky Way
Traveled through time, Aja McFly
Jabba the Hutt got the good supply
Shootin' star, watch me sweep the street
Red giant [?] when I cleave the meat
They all dwarves, it's about to be over
When I explode, there'll be a supernova
Wanna stop me? What's your tactic?
[?] boys, intergalactic
If this bitch don't get outta my mentions
My niggas will blast you to a new dimension

I'm taking off to the planets
Spaceship is gold, 24 carats
Four-door look like a Transformer
Decepticon, I'm a better performer
I be on Cybertron
You be on Autobot

It's not my fault I be touring
With the only solo spot

It's like the Twilight Zone
Nobody's phonin' home
It's just me and all of these drones
It is me you can never clone
They think that they know me, but they do not know shit
[?], stay on my snow shit
Never been phony, parallel flow shit
Damn, I'm serious, I'm not on no joke shit
Not on no joke shit, I been on my dope shit
Smokin' that potion, big telescope shit
Over that trope shit, I'm over that trope shit
Hey, Arnold, I'm the Terminator
I'm the bum bitch exterminator
Wearing cashmere, percolator
Imposter, my impersonator
You can never replicate what is greater
[?], I'm the germinator
Taking the piss, I'm the urinator
Abe Lincoln, bring the Navigator
Carry the Birkin, the alligator
I'm feelin' myself, masturbator
Marty, A.R., my collaborators
Where my dividends? Where my calculator?
Pressin' the button, accelerator
These niggas is loony, call the animator
Elevator, elevator, up and down
Data point me with the crown

I'm taking off to the planets
Spaceship is gold, 24 carats
Four-door look like a Transformer
Decepticon, I'm a better performer
I be on Cybertron
You be on Autobot
It's not my fault I be touring
With the only solo spot
