

## Bleed That Bitch

AK

The beginning so much fucking better off always  
Everything was bliss and now I can't figure it out  
How come when we're close, we're so far away?  
Come to find out what you did, and how I caught you

I don't want to, but I have to  
Believe that shit cause I've seen that shit  
And I don't want to, but I have to  
Cause I've seen that shit, now I bleed that bitch

All the time I put aside for you and this is how you show  
Me the way you feel and told me you fell out of love  
You said I, I needed some-something else  
You burn my heart, all in my tears, put it out  
I'll stay by my lonely, feel like I'm supposed to  
I just get betrayed by everyone I'm close to  
So why would I make room? My heart is just way to  
Good for anybody else, mmm

Someone come and help me find a way to figure this out  
Love is either peace or everything burn us down  
Yes, this is how it ends, play me like a clown  
All that time we spending, now I hate y'all

I don't want to, but I have to  
Believe that shit cause I've seen that shit  
And I don't want to, but I have to  
Cause I've seen that shit, now I bleed that bitch

When I pull up to our house, I heard you moaning from the driveway  
I walked past the car that ain't yours, but parked where my spot is  
And you ain't seen that I'm back, I'm tryna keep it low  
Then I walk into our room, you in bed with one of my bros  
That's just, too far and I can't unsee that  
That's two scars in both of people I believed in, I  
I know the good never wins, so  
Why the fuck I give it my all? Please can someone

Someone come and help me find a way to figure this out  
Love is either peace or everything burn us down  
Yes, this is how it ends, play me like a clown  
All that time we spending, now I hate y'all

I don't want to, but I have to  
Believe that shit cause I've seen that shit  
And I don't want to, but I have to  
Cause I've seen that shit, now I bleed that bitch
