

You don't know what you did to me
It's all a cycle, my life and heartbreak
I lost all my hope from all my heartaches
I hope you've been well
Although you've drowned me in my own tears
But I've learned one thing

Heartbreak makes you heartless
I used to live to love and now it's all dead
I feel, I feel, I feel, I feel numb
Heartbreak makes you heartless
I used to live to love and now it's all dead
I feel, I feel, I feel, I feel numb

Yeah, I'm numb to the pain you try to bring
Told me you love me but things change
All you would do is just bring pain
'Til I broke out of your fuckin' chains
Now you ain't shit to me
Now you ain't shit to me
Baby, you history
You brought me misery
Look what you did to me
Look what you did to me
Your fam trippin' askin' where the fuck I'm at
Sparked a love in my chest and now you burned it to the ash
Better tell 'em all the reasons I ain't never comin' back
Don't hold your breath, you think I'm ever comin' back, yeah

Heartbreak makes you heartless
I used to live to love and now it's all dead
I feel, I feel, I feel, I feel numb
Heartbreak makes you heartless
I used to live to love and now it's all dead
I feel, I feel, I feel, I feel numb

I don't feel nothin' but empty inside
My heart is now hollow, you're the reason why
I say that I hate you, I know it's a lie
On the surface I love you, deep down I despise
You fucked me up bad, now I battle myself
This song ain't about you, don't flatter yourself
You put me down, left me to drown in my tears
Now you hate me because I got out with no help
Who the fuck you think you are?
Out here tryna break my heart
You left me in the dark
I'd never tell you, but you left your mark on me

Heartbreak makes you heartless
I used to live to love and now it's all dead
I feel, I feel, I feel, I feel numb
Heartbreak makes you heartless
I used to live to love and now it's all dead
I feel, I feel, I feel, I feel numb
