

Detox

AK

I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah
I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah

All of my life I had something to prove
Now I wake up do whatever I choose
Girls left on read and the checks come in blue
Can't get distracted been thinking about too much stop hittin' my phone
But they know I won't say no
Said she flying out to LA in the morn
Hit it once send a plane right back home

You've been making me so useless
I been out duck duck goosing
Think I done too much
I will never choose love
You don't wanna lose us

I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah
I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah

I never thought too much
Would be too much for me
I just want company
But lately, I know it's been fucking with me
Every time I go to right any wrong
Feel like I'm fighting a fight that can't be won
Say it ain't right you might be right but no
You couldn't last a night in life alone now

You've been making me so useless
I been out duck duck goosing
Think I done too much
I will never choose love
You don't wanna lose us

I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah
I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah

I can tell all you want is love

T-B-H I just wanna fuck
P-C-H in the cedes truck
Been too long and I don't wanna go home cause

I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah
I think I need a detox
Getting sick of it messing around with these thots
I just hit and forget it I got amnesia
They love the way turn the G wagon into the Gspot, yeah
