

# Don't Look Down

AK

Thinkin' back when we ain't really have shit  
Never slacked and I look at all that's happenin'  
We made it happen, the struggle's givin' back  
And we made it happen, the struggle's givin' back  
Now the pieces fallin' into place, that's hard to see (That's hard to see)  
The picture I been tryna paint, I start to see, yeahh  
Everything I ever dreamed about is not a dream  
It's reality, I feel I won the lottery, yeahh

I'm still feelin' like it ain't enough  
I'm still hungry, gotta keep it movin' up, yeah  
Never satisfied with everything I've done  
I know there's always gon' be plenty more to come, yeahh

Oh no, baby, I don't think they ready for it  
Up high, in the clouds where they lookin' for us  
Can't lie, baby, I feel I'm on top of the world  
Baby, I feel on top of the world  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby

We too high up, we can't look down  
We too fired up, won't get put down

Anything we want, we gon' get that  
Never look down, only up, no setbacks  
Make our own space like we bout to hit a step back  
Step back, look around, yeah, we did that  
All the work is now startin' to pay off  
We really 'bout to start a wave  
All the people talkin', tryna hate  
Let 'em talk, they ain't the one's who made it  
Somethin' from nothin', mad 'cause we up and they stuck  
They ain't never really want this  
We want this more than we thought  
Now we up there, yeahh

But I still feel like it ain't enough

I'm so hungry, gotta keep it movin' up, yeahh  
Never satisfied with everything I've done  
I know there's always gon' be plenty more to come, yeahh

Oh no, baby, I don't think they ready for it  
Up high, in the clouds where they lookin' for us  
Can't lie, baby, I feel I'm on top of the world  
Baby, I feel on top of the world  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby

Took long enough but now we here  
It's all for us, it's all the years  
We put in this, blood, sweat, and tears

It's all too clear, that's why we here

Oh no, baby, I don't think they ready for it  
Up high, in the clouds where they lookin' for us  
Can't lie, baby, I feel I'm on top of the world  
Baby, I feel on top of the world  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Oh no, baby, I don't think they ready for it  
Up high, in the clouds where they lookin' for us  
Can't lie, baby, I feel I'm on top of the world  
Baby, I feel on top of the world  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby

Listen, Momma  
Look down, baby, don't look down, baby  
Look down, baby, don't look down, baby  
We put in this, blood, sweat, and tears  
It's all too clear, that's why we here
