

Gods Plan

AK

Yeah

Yeah

Living the way that I want yeah
Russian when I ain't even born there
[?] what you want yeah
Frenching your bitch, [?]
Memories I ain't ever tryna bring back
Moved on from that
Now I'm All That
Ask Kenan I'ma Kel 'em all
Such a gory death like its All That

Knew I'd always find a better way
Making money clean more is on the way
I was always broke never in the brain
Never start to think I would never make it
In this career
Devil in my ear
Tryna take the wheel
Tryna make me steer
Right into the gutter
Tell my fam I love 'em
Felt 'em goin' under
Knew I'd over come it yeah

I made it out, yeah
So they hating now, yeah
But they stay around, yeah
Why the fuck they stay around, yeah

Thinking 'bout it, it don't make sense
Just like you, you don't make sense
Like yo broke ass don't make cents
Always give me shit
But I don't take shit
Shit jumpin' when the subs hitting
I'm a lion feasting I got blood dripping
From my teeth you know when no fucks given
I'm a lion feasting I got blood dripping

Everybody knows it's about that time
New shit coming it's about that time
I been out out in LA all about my grind
On the road to the top got my mind in line
Distraction coming I can feel it now
Feel the pressure tryna tear me down
Not a chance always held it down
You think I run track the way I'm runnin' 'round
I handle business every second I'm breathing
I'm a go getter, king I need to be
My work ethic gonna get me seated on a throne
Up above you sketchy leeches
It's a cold world so the boss freezing
Boss frozen through all season
Gotta a heart of hustle 'cause I'm all meat
Heart talk 'cause I'm proud to be here

Now every time I'm on a beat it's homicide
Born for this I'm going in until I die
Shut your mouth when I'm talking do you mind
Talkin' wow you really must be out your, mind
I be working every day now
AK never play around
Fuck 'bout what you say
Million subs is on the way now
OG shit is dropping
Never stop we on our way now
Moving up and up it's like we flying with the planes now

My plan
This is my plan
My plan
My plan
This is my plan
My plan
This is my plan
My plan

Workin' hard I put my faith in God's hands
Givin' back to those who ride with me
Every person who been guiding me
My brother, sister, father, mother too
And Mike Ugarte they've been guiding me
Through the struggle times
But the great too
Now they see us coming and they make room
On a different wave but we stay true
And any obstacles we goin' straight through

Growing improving they say we won't do it
We did it and now they got nothing to say
Soul in this music I knew we could do it
We go and then proved that we got what it takes
Steppin' around when they know we around
They all scared of us now and they stay out the way
Shutting shit down from this moment
And now once the single is dropping been counting the days

Thank God I've been patient
Never sat and just waited
Always worked and I made shit
Happen now shits amazing
Life's crazier than ever
Never thought to quit ever
Now we stacking that cheddar
Things can only get better

Staying focused on the next move
Who gives a fuck about the next dude
It's all ups and downs
But I'm focused now
On the next summit I'mma get to
2017 we killed it
We the greatest team and they feel it
2018 we coming for you
First official single drops at a million
