

Got Bored

AK

This real raw
Real raw shit

Yeah
Never high tops, I like my J's low like A-Rod
Told her I got a rod, said she wanted a ride
Said come to the stu', just made another hit feel like A-Rod
I hit it in the booth, she hitting high notes like she praise God
Out the park with it, fuck around, hit all the bases
Grand slam, no Denny's but probably where I'll take her
Shout out D'elia, life rips even when we not teed up
They silent 'cause I am everything they wish they -
Wait a minute, lemme stop
I know how you feel
Want me trapped inside my bedroom where this started
Well I feel a little differently
Went from remixing beats and now we here
Rapping over beats, I made my fucking self
But I'ma chill, let me

Slow it down
Slow it down, a second though
Hold it down, for my roots seven thirty dos
I don't want, ever be on a pedestal
You and I, we're the same don't forget it no

Slow it down
Slow it down, a second though
Hold it down, for my roots seven thirty dos
I don't want, ever be on a pedestal
You and I, we're the same don't forget it no

I'm so blessed, all my stress stemming from my blessings
When I'm stressed I'm at my best because I know what that means
Flowers blooming from the seeds I planted back last spring
And my patience is unmatched though that's why y'all love testing
Let me blossom, let me frolic, let me live the life I own
Everything I'm scared to say is why I write so many songs
Different flow sand melodies, a lot of them don't have any
Types of bars I know y'all want, so I be scared to let 'em see
The light of day, 'cause that's the vibe that probably won't really hit
But fuck that, I get it's business but my gut ain't feeling it
I know myself more than you when you talk I ain't listening
You only want to see me win 'cause you after the benefits
But me, I know you better
Shit I know you better than you do
Feed me pressure, how I keep getting better while you lose
Relief was never, never something I could get used to
Eat together if we keep it together, no screws loose

Fell apart, brought myself back
Yeah that's all me
Now I'm far, I'm so far ahead of the old me
I could tell you, but you never gon' see the whole thing
It's whatever, I'll make a hit and better the whole team
