Let Loose

AK

I feed off power, don't make me lose it
Spent like three-four hours tryna produce this
And we spark flower in attempt to loosen-
The tension that we pretend ain't there but boy it's a nuisance
Sometimes we forget the power we possess
Rely on everything but ourselves to reach success
That's where shit goes down, the mirror's our biggest threat
But at the same time our strongest weapon if we feed the clip
And I don't get it, why the fuck you not doing it
Ammunition infinity but you just ain't in tune with it
Worried 'bout losin' and if you do you'll come back a new edition-
With the mission of never giving in again you're the difference
I'm living proof I don't mean to do all this preach shit
I'd feel bad if I didn't make use of the reach that-
I've acquired to inspire 'cause I know there's a reason
I was chosen, gotta open up my life to who needs it
Reality distorted, that's what the hype do
Pressure different when you realize that they tryna be like you
Time freezes like the piece that's on a wrist full of ice-
When you come to turns with the impact you and the mic move
With, it's true shit, 'cause when you lose is when you win
The proof is, when you step back and digest the shit you did-
And use it only to see what you need to improve but-
You've been so caught up tryna pass somebody who-
Isn't even a threat
So take a breath and relax, don't-
Blame yourself, take the lesson 'cause that's what matters
Train yourself to keep pushing 'cause at the end at least-
You get backed against the wall and not the floor in a casket
Sometimes we forget the power we possess
Our drive to hustle gets devoured when we in our heads
Some time passes and then we shoutin' in regrets-
'Cause we ain't pull the trigger, then we cowards when we sit and reflect-
On the past, but fuck it I'm pass this
Some things I've been through, it hurt but I wouldn't have it-
Any other way, like really, could you imagine?
Who you'd be today if you ain't walked around with no baggage?
If you say you ain't got it any you bullshittin'
That's a red flag, homie, you matadoring it
Here to make a big splash so I dove in and-
Gave this shit my all 'til I have the money pouring in-
The safe full of salad dressing only blue cheese
Can't wait the day I treat the wraith like a hooptie
There's plenty of you, but I'm what you need
They'll never be two, of what you see
It's me, no surprise, told you ain't nobody got it like-
I do, no surprise when I see they be tryna bite
Talking how you climbing heights
I see what you tryna hide
All the strings attached, so you flying but you just a kite
Ey, you got a ceiling they ain't lettin' you pass
Fuck beef, I'm just teaching all of those who don't have
The insight that I do from the place where I'm at
'Cause I been watching you fake shit, it got me feeling bad
For anybody that fucks with you but my time ticking
So most the time I'm 'bout mines and I mind my business
But look, my eyes catching how your disguised image-

Is that to mask how you ain't nothing but a frontline bitch (Ooops)
You fa-ading out, you ha-ate me now
It's ama-azing how you cha-ase the clout
And you pa-ay now
Ey, it's over like that
If that's your motive shoulda known you prolly might crash
World is colder then my sholder to you I can't
Feel bad if you mad homie, fight back
Fuck around, tryna copy know you wanna be
Everybody, but the one that you be calling me
Get it poppin', quit the gossip you fucking up with me
Ain't no stoppin', think I trust you? Nada, you funny
Eh
