

You ain't made it very tough for me to dip, oh
Why the baddest always crazy as a bitch? Oh
Why your daddy pulling up to my crib? Oh
Only bullet that I've dodged was his kid, oh
Only time we never fight is when you moaning
We pretend it's love although we know it
Everything I ever did you picked fights
I'm just tryna live life, she made it so hard

Because she was loca
I did everything that she wants but she wants more, I'm
So done

She got my head spinning like wine night
Pussy fire, only reason I gave her nine lives
I'd give this chick my right arm but she don't see it like blindside
And I don't live to give energy where it's not right
The wild thing is I still kinda love you
The fights and shit was bad but when it's us and ain't no others
It was cool, I said goodbye but don't regret
You lied and showed me no respect [?]

You ain't made it very tough for me to dip, oh
Why the baddest always crazy as a bitch? Oh
Why your daddy pulling up to my crib? Oh
Only bullet that I've dodged was his kid, oh
Only time we never fight is when you moaning
We pretend it's love although we know it
Everything I ever did you picked fights
I'm just tryna live life, she made it so hard

Because she was loca
I did everything that she wants but she wants more, I'm
So done

You done brought the worst outta me
I got patience, I stay you think I'm pulling your strings
Always asking 'bout, my ex chick, had to turn you to the next
It's easy for me now, I don't regret shit
Ever since you left I been focused on myself and now I'm done with hoes
You hoping all this killing me, you crazy? No
It's like you love to see me down
Now I'm never coming round again, why'd I be hurting 'bout it when

You ain't made it very tough for me to dip, oh
Why the baddest always crazy as a bitch? Oh
Why your daddy pulling up to my crib? Oh
Only bullet that I've dodged was his kid, oh
Only time we never fight is when you moaning
We pretend it's love although we know it
Everything I ever did you picked fights
I'm just tryna live life, she made it so hard

Because she was loca
I did everything that she wants but she wants more, I'm
So done
