

## Long Distance

AK

When my good days turn to bad ones, got me up  
Late night playing you the last one  
I've been trippin' way too hard but you know how I be  
Couple dollars for a drink then we find ourselves here  
Who would ever think it be us, but here we are  
I'm so glad we are, ayy

I'm sitting by my phone wishing nothing gon' go wrong  
It's the long distance in my soul, I know I'm gon' get old with  
you  
But I fiend for touch, there's nothing with it  
Just know that when you back around, you gon' have a bone to pi-  
ck  
We've been dream chasing and I ain't seen you for a minute  
Soon I be on the road, it's gon' push us to the limit  
Still I wouldn't change a thing, and I know you feel the same,  
uh-uh

When my good days turn to bad ones, got me up  
Late night playing you the last one  
I've been trippin' way too hard but you know how I be  
Couple dollars for a drink then we find ourselves here  
Who would ever think it be us, but here we are  
I'm so glad we are

Ain't nobody understand me the way you do  
So temporary distance, ain't getting in between me and you  
I fly out tommorrow, you know I ain't kidding  
I pick up a bottle, ain't drank in a minute  
Rose [?] won't make a difference  
We gon' get it done, done, done, done, done

When my good days turn to bad ones, got me up  
Late night playing you the last one  
I've been trippin' way too hard but you know how I be  
Couple dollars for a drink then we find ourselves here  
Who would ever think it be us, but here we are  
I'm so glad we are
