

Monster

AK

Yeah

I'm like "Blah, blah", I wish I could tell you, "Bye, bye"
But with you comes with the climb, climb
Got me all up in my mind, mind
Someone make it stop, yeah, but not yet
Trying to link in like a top hat, just stop that
Everybody know I been around, fucking beast boy, you not shit
So anything you tryna tell me, toxic
They be asking questions, I'm so ahead of my time
Everybody wanna mention me when they talking about
How the fucking greatest ever is still right here and alive
Always reaching steady, pressing me for a piece of the pie

I'm a beast, I'm a motherfucking monster
A beast, let me loose and now they all feel the heat, uh
I'm a motherfucking monster, a beast
The world my motherfucking casa
Looking at me crazy, you just mad because you not us
I remember eating ramen noodles, now it's lobster
Things start moving up the very second that you dropped her
Momma say I'm crazy, told me to marry a doctor

Ayy, they keep telling me I'm just a kid from Jersey (Jersey)
There's a lot of "could've been's", they all peaked too early (Early)
But I got so much in, my plans, I just let the journey
Take me where it can and I'm praying that it never curse me (No)
Everybody talk that shit, make a move, and they love me, they on that shit
Why you on that shit? Begging for a ride, bitch get off my dick
Loose screw mind but I want my chips
Silence, listen to the sirens, big noise coming and just know that I'm behind it
Just so if it cross your mind, never walk that line, you ain't ready for what's on that side

I'm a beast (Goddamn), I'm a motherfucking monster
A beast, let me loose and now they all feel the heat, uh
I'm a motherfucking monster, a beast
The world my motherfucking casa
Looking at me crazy, you just mad because you not us
I remember eating ramen noodles, now it's lobster
Things start moving up the very second that you dropped her
Momma say I'm crazy, told me to marry a doctor

They told me to stop it, but not yet
They wan' see me what's up in my head, if I drop dead
Give my life to where my heart set, I got that
Everybody know it's all facts, it's hard facts, ahh

I'm a beast, I'm a motherfucking monster
A beast, let me loose and now they all feel the heat, uh
I'm a motherfucking monster, a beast
The world my motherfucking casa
Looking at me crazy, you just mad because you not us
I remember eating ramen noodles, now it's lobster
Things start moving up the very second that you dropped her
Momma say I'm crazy, told me to marry a doctor
