

## Motley Crew

AK

Fuck you, fuck them, fuck everybody you working with  
See a lotta bum ass rappers wrapping their tourniquets  
Cause AK coming the album bound to be murdering  
The ones they call competitors, titles they ain't deserving  
How is competition not able to do as much as you?  
How they competition if none of em give a fuck like you?  
My competition is pussy, I beat it up, I ain't rookie  
Been yelling you to bet on me, I'm more than the bookie

I'm the man that makes it happen  
Working long nights, no relaxing  
It's a hard life, no distractions  
Play your cards right, your life magic  
Imma go getter, go getting  
Tryna go get a check  
If I don't get it, don't get it  
It's when you know that I'm dead  
I'm gone

Hol up, I ain't ever dead  
Music I been writing through mic it give em fear  
Send em to the light it's they like it when they there  
Only reason you're above me cause your souls up in the air  
Towards God, buzzing like I'm faded, never jaded, I'm solid  
Who you know sneaking in triple entendre  
Need a whip like my chick, no mileage  
50 told me Imma get rich or die trying  
Fortune teller I see you in ICU  
Your corpse the only time that you'll be icy cool  
The nicest dudes really got more fight than you, yeah  
Don't like the rules, never really like the rules, yeah  
I move how I like too, got my sight glued  
To what I knew I always had to  
Fight through what my life threw, spending nights soothing  
With tears, they always helped  
Now I'm boutta blow, it ain't safe  
Fate Loves The Fearless my debut  
Now it's off with they heads  
You gon' walk a road that I paved you

I'm the man that makes it happen  
Working long nights, no relaxing  
It's a hard life, no distractions  
Play your cards right, your life magic  
Imma go getter, go getting  
Tryna go get a check  
If I don't get it, don't get it  
It's when you know that I'm dead  
I'm gone

Why my people started acting different  
Don't know actually, you know I'm asking questions  
Why my homies turn to fakes like actors living  
See their fucking face and I be laughing in it  
I been getting paid  
See em all, they hate  
Let me go hit the bank

Goku Super Saiyan  
I been going too hard to finish  
They all washed up like my dishes  
They female dogs, they all bitches  
And they all know that I'm gon get it  
Say my mind way to press the accolades, no  
I been in my own lane, so  
I'mma do what I'm made for  
Mad at your life, that what you hate for

I'm the man that makes it happen  
Working long nights, no relaxing  
It's a hard life, no distractions  
Play your cards right, your life magic  
Imma go getter, go getting  
Tryna go get a check  
If I don't get it, don't get it  
It's when you know that I'm dead  
I'm gone
