

# Never Sleep

AK

I remember smoking just to feel some  
Then I started poppin' I ain't talking bout no pills no  
I was always starving then my plate was startna fill up  
Started getting heavy wasn't ready for the meal tho  
And I really let it get to me  
Man I'm talking every night scared to die if I went to sleep  
Saw my heart was pounding chest bouncing felt like I couldn't breathe  
When I'm in that state of mind terrified so I never speak

Lotta people just got me misunderstood  
But if only they knew what's under the hood  
Of what drives this  
Always felt like it's clouds above me wherever I went  
And no one ever knew cause if hurt then I'm silent  
I turn my back lots of people  
I was tryna find  
Myself in all my growing years but music I would write  
Start reaching people globally say how I changed they life  
Thought I knew but didn't know that this could happen with a mic  
Fast forward 3 years look at me now I'm touring  
Lost within myself, but just the thrill kept me going  
I remember I would smoke every night after the show finished  
In the van then we on back on the road for more business  
Smoking only thing that let me go of what my souls feeling  
An all this time nobody knew that I was down bad  
I kept everything to myself I felt like an out cast  
Let me know if you ever felt like this cause I

I remember smoking just to feel some  
Then I started poppin' I ain't talking bout no pills no  
I was always starving then my plate was startna fill up  
Started getting heavy wasn't ready for the meal tho  
And I really let it get to me  
Man I'm talking every night scared to die if I went to sleep  
Saw my heart was pounding chest bouncing felt like I couldn't breathe  
When I'm in that state of mind terrified so I never speak

I always do that when I'm hurtin I don't say a word  
But I'll make a song open up and now my family concerned  
But then my homie hit me up said I'm the one you can call  
I know your road is rough but I'm right here through it all  
Grew a lil distant but I ain't cut you off  
Just know I got your back I don't want you to feel lonely  
That changed it all  
Felt like a weight is off  
My chest cause someone close reassured that I ain't alone  
That small gesture the start of my next book  
New beginning cause that last chapter had to be the last one

And we all live with regrets but we move forward from the shit  
Might be hard to let shit go but we ain't supposed to live with it  
Part of growth and we may fold but we ain't broken cant give in  
We stay strong up on ten toes because we know we gonna win  
We all in our heads but we know in the end  
That we gon' figure it out, it's part of the bigger plan  
But we can't get distracted now  
We felt what comes from our actions now

Mmmmm

I remember smoking just to feel some  
Then I started poppin' I ain't talking bout no pills no  
I was always starving then my plate was startna fill up  
Started getting heavy wasn't ready for the meal tho  
And I really let it get to me  
Man I'm talking every night scared to die if I went to sleep  
Saw my heart was pounding chest bouncing felt like I couldn't breathe  
When I'm in that state of mind terrified so I never speak
