

No Games

AK

I see them checks is coming, I ain't even getting paid
But I know it's coming I'm preparing how I can
In this cause I love it seeing lives and how they change
All from what I'm writing putting power in the veins
If they gonna play them games, they don't stay around me
Ain't never played no games, I get my bread I'm outtie

Familiar faces
But no one looks the same when
I remember seeing them last, wonder what changed them
Girls that used to curve me now eager to get a taste since
I focused on the core what's me, and never lane switched
I been patient, can't keep up with the pace then I can't
Risk a thing that'll put me in 2nd place cause imma win
You say I changed to make yourself feel okay cause within
You ain't okay with the situation you're in but you wont change

Asking God to save your life
Without trying things you like
Think it's timing with no grinding like shit find its place in life
Look behind the mask you wear
You gon everything there
S'how I did it now I wont stop till I get it

I see them checks is coming, I ain't even getting paid
But I know it's coming I'm preparing how I can
In this cause I love it seeing lives and how they changed
All from what I'm writing putting power in the veins
If they gonna play them games, they don't stay around me
Ain't never played no games, I get my bread I'm outtie

I ain't done everything right
But it's cool I'm right here
Living, learning cause it's life
Not everyone's sight clear
Had to chose for me what's right
Sacrificed and I cried tears
But if I had to give my life
I'm giving it right there

Ion say that acting like I ain't never been tested
Life was like a blade moving closer round where my neck is
Shit was wearing thin but by God I knew I'm selected
Only job I have is to get me to where I'm destined

No one's flawless
Nothings promised, yeah
Ooh... but if I'm honest I cant wait for the day I say

I see them checks is coming, bro you know I'm getting paid
Bitches tryna love me but I only want the face
Get it how I want it, they do anything I say
I been tryna get to it baby know I don't play
If they gonna play them games, they don't stay around me
Ain't never played no games, I get my bread I'm outtie

Your career lasted as long as a conjugal visit

Viagra in my blood fuck the game up as long as I'm living
Tryna make M's then flip em cause all I know is W's
Took some L's cause I'm loyal life loves to let lovers lose
Now they telling me I'm different and I changed up
I'm just focused more on the things that ain't changed on me
No longer caged up they scared cause they know I'm dangerous
My heart and soul is for those ain't never went fake on me

I can't, let they, words cut, me too
Deep I, know they, hurting, deep inside themselves
They take it out on those that think like me

I see them checks is coming, I ain't even getting paid
But I know it's coming I'm preparing how I can
In this cause I love it seeing lives and how they changed
All from what I'm writing putting power in the veins
If they gonna play them games, they don't stay around me
Ain't never played no games, I get my bread I'm outtie
