

Amen

AKA

I really know how it feel, yeah
Be stressed out, chest out
Stomach in, chest out
Head down, grinding
Paying my dues in silence
All of my dudes is violent
Sirens, sirens
Get down, get down
Koketsa, [?]
All of these youth is wildin'
So all of this juice inspiring
Never gon' lose my timing
Pressure produced these diamonds
Young man, young man
You can have the coupe that I'm in
All you gotta do is lalela, lalela, lalela, lalela
Amen, amen, amen

I really know how it feels, yeah
Stressed out, stressed out
Stomach in, chest out

If I was a president like Thabo
I would pull out all kids from Eldos
And I pull up on the couch with uTado
That's my bros, bros, something like barcodes
10 years been the game in the castle
Break 'em all little cheese like nachos
Big dreams, colossal
Meat grains, Panado

Did it for my dudes in Alex
Never gon' lose my balance
No beef, salad
OG status
Low key, savage
High key, damage
Mzansi Magic
Thrombies classic

Mayonnaise
Every time they come back or fall
Actually take a little piece of my soul
That's the reason why I can't build my own
Go

I just want to be in my zone
Niggas wanna talk about clothes
Fashion, hoes

They gon' pull up like a thief in the night
They gon' go home to their kids and their wife

We was the [?] of the new school
Charged up no batteries
That was way before YouTube
But I'm front page of the magazines
I was trying to feed my family
Wishing on the stars and the galaxy
Bigger picture in the gallery
Now I'm bossed up paying salaries
Feel boom with the melody
Got a big boy personality
Real toys that's motorsport
All that sweet talk give me cavities
Started home with the charity
Giving students loans to academies
I did the shift for the culture
Go ahead and get your diploma

Real ones, they can feel me and my persona
(Sheee, sheee)
Keep it clean with the energy
