

## Daddy Issues II

AKA

Every situation that we facing feel like déjà-vu  
My nigga please don't ever ever love a woman more than she love you  
All my niggas telling me that life goes on  
Tell me what's the reason why I'm so far gone  
Fuck your social-media encyclopedia cause them days are through

Tell me do you want an actress  
Tell me do you want a bad bitch  
Tell me do you want a 'gram chick  
To do photoshoots with Blaq Smith  
Forever 21, let's bring out the champers  
I got too many cuts, do you got the bandage  
Now we're too established to deal with the madness  
Let's fuck up the mattress, then go make a sandwich  
Going HAM in the Virgin Active  
Treat your body like a canvas (Oh yeah)  
Everyday is a tidal wave, one flood away from the tabloids  
That's damage  
How you gon' pack your shit away on a holiday  
That's savage  
Parents say "Do you really got what it takes to be in tandem"  
Even they couldn't find a way so they had to break up the family  
Toyota Camry

Every situation that we facing feel like déjà vu  
My nigga please don't ever ever love a woman more than she love you  
All my niggas telling me that life goes on  
Tell me what's the reason why I'm so far gone  
Fuck your social-media encyclopedia cause them days are through

Everybody got their armor on, that's Joburg  
Blessed bitches book bodyguards  
Just in case they run into the baby moms buying groceries  
Squad checking for the Audemars when you pour a glass  
And you toast it  
Goddamn, is that not some hoe shit  
Fat ass tryna act bad on the socials  
But when it's time for that home shit  
They gon' backtrack like they wholesome  
But it's over  
Tryna keep up with the Joneses  
But we too caught up in emotion  
Is she just a drop in the ocean  
Or she the one I can grow old with  
I say: Holy Father give me strength  
Right until the end  
She ain't even tryna talk to me with respect  
All I ever wanted was for you to go to bed and hit me with a text (Oh yeah)  
Everything is hunky-dory when we're on the jet  
Let's not pretend

Every situation that we facing feel like déjà vu  
My nigga please don't ever ever love a woman more than she love you  
All my niggas telling me that life goes on  
Tell me what's the reason why I'm so far gone
