Oh you're so over me, can't go on with me (Ayy)  
Oh you get off and leave, don't got time for me (Ayy)  
Oh you're so hard on me, demon off a leash (Ayy)  
I get so-so weak, I've heard you (Ayy)  
Oh you're so over me, can't go on with me (Ayy)  
Oh you get off and leave, don't got time for me (Ayy)  
You're so hard on me, demon off a leash (Ayy)  
I get so-so weak, I've heard you (Ayy)

Tell me why you so hard on me?  
Everything was good 'til you put your paws on me  
And I gave you so much, every shot was clutch  
They say all the girls want is consistency  
But it's never enough and I must admit  
You were sharp with your tongue, you was crystal clear  
Had to brush myself off everytime you said you need a real man  
It was tough, 'cause I loved you deep and it bugged me  
'Cause deep down you don't really really mean that shit when you buzz me  
But you did plant seeds in my subconscious  
I just took it out the backdoor like rubbish  
While you upstairs and I'm sleeping on the couch  
Shit don't even make sense when we're in the same house  
Next few days we don't even say nothin'  
Run into each other on the way to the fridge  
Waitin' for the first one to blink  
Baby, this shit is so childish  
Lift you up on the sink, like you been waitin' for the same thing  
We too proud but this is a win-win, just allow it, out

Oh you're so over me, can't go on with me (Ayy)  
Oh you get off and leave, don't got time for me (Ayy)  
Oh you're so hard on me, demon off a leash (Ayy)  
I get so-so weak, I've heard you (Ayy)

In my head you're my lover  
Keep your PhalaPhala files in the key  
Spend a little less time in the streets  
Do one hunnid for your friends if they ever fuck around siyaba kick  
This cav'in ain't allowed on the beat  
These niggas move around on my say so  
You the only one who gotta say some (Mxm)  
Wassup with that? Fuckin' with my confidence  
Umangalel'umongameli, meet me in the kamer sik'bona nini?  
Dudlu ke my dali sobadubula dubula  
Keep it undercover basakhuluma kakhulu  
Everything is solid, I'm just smokin' on a loose  
Kohlela'magwala they be chokin' on the truth  
'Cause it's real life, hello  
I'm movin' like the dark Othello  
Heavy on my heart, when you're talkin' 'bout the past, can't let go  
Siphola ngaphakathi  
I promise you whenever we apart, I'ma think about the start that's patience,  
basics  
Secret conversations, I just keep it flowing H2O alliterations  
Statements, cadence my commiserations  
Had to kill the kid because the chemistry betrayed us  
That's how I solve beef

I just show you love 'til you gotta call Chief  
Yeah you know I go hard but I gotta talk peace  
I just do my part, pray you follow my lead with ease
