

Energy

AKA

Ngathi sisebenzisa umuthi baba

Knowledge and power
Top of the mountains
I'm at the peak of my energies
I feel like Tony Montana
I never panic, I never freeze
I keep it cool under pressure
Super fresh, air freshener
Playboy, Hugh Hefner
I gotta go, I'll be back in a minute
My breakfast is co-co-cold
Handle my business
I was deep in the dust, push myself to the limit
In Mega we trust-trust-trust
Until the finish

It's my time to shine
Bad guy almost died
Ain't no room for two
Ego supersize
I give all my friends and family more life
I spend all my money on the tingz I like

How many hours, I sacrifice
Just to look my familia in the eye?
In my experience, all of these millions don't guarantee you a piece of mind
My superpower is speed of light
I want my flowers, while I'm alive
My fire burning way deep inside
I got my diamonds from Jesus Christ, amen!
Gunmen, I am a King
I'm so addicted to doing my thing
I got ice in my veins
I drop the dagger from range (Clutch)
Don't let fame make you dizzy
In Mega we trust-trust-trust
Until the finish

They ask me "Mega, when you gon' drop?"
We need some music that's from the heart
Don't give a fuck who you think is hot
I'm past making money, I'm making art
Perfecting my craft like I'm Tony Stark
I do the tingz with the pepper pots
I could just chill and never make a song again
No restraint on my catalogue
Fuck a debate, who got better cars?
Fuck a debate, who got better bars?
I do this shit for a greater cause
I'm a motherfuckin' shooting star
One man, stunt man
I'm addicted to winning
In Mega we trust-trust-trust
Until the finish
