

# Snakes and Ladders

AKA

Riding with my gangster on  
Seat level and it really don't matter  
On my way to make her fall  
Last two was tryna get famous  
I just wanna play my part  
This game of snakes and ladders  
Only gonna make us strong  
Gonna make us strong

Somebody tell me what we doing in this Goddamn club  
Party all night drink too much  
Looking in the wrong place if you trying to find true love  
Living life in a polystyrene cup  
Plastic! Everything I touch is a drug  
And every girl I fuck got a grudge  
Everybody watch what I does  
Warm handshake between my old ace ain't what it was  
Girl, understand me now  
All of a sudden everybody family now  
All of a sudden everybody: "Hand me out"  
I could never let you motherfuckas drag me down  
Strike a pose for the Kodak moment  
Take another shot keep the good times rolling  
Pussy like the ocean, he is moses  
The good die young guess I'm one step closer

Riding with my gangster on  
Seat level and it really don't matter  
On my way to make her fall  
Last two was tryna get famous  
I just wanna play my part  
This game of snakes and ladders  
Only gonna make us strong  
Gonna make us strong

Me and the money got a fatal attraction  
They put it in my hands still evaded my taxes  
Paper clips and rubber bands, pardon my fashion  
My pockets on sag, I be pulling my pants up, but never mind  
Everybody rap these days  
Trapped in a maze full of rap cliches  
Summertime, in the limelight we bake  
On the way to get any bottle he say  
But wait  
Where the fuck was you when I was uncomfortable but didn't have a spare buck  
for change  
All black tux better handcuff your bae  
Throw your hands up paper bags up we paid!  
Hey!! don't stop till 6 in the morning  
Take a tape and confetti keep falling  
Black parade, say a prayer for your daughters  
Fuck maintain bro I gotta keep... [laughs]

Riding with my gangster on  
Seat level and it really don't matter  
On my way to make her fall  
Last two was tryna get famous

I just wanna play my part  
This game of snakes and ladders  
Only gonna make us strong  
Gonna make us strong

Seems like everybody got a hidden agenda  
Screen time make it hard to figure who friends are  
Peace sign baby I'll be gone till November  
Petite size, in between thighs I end up  
Street lights!  
Baller types pulling they Rolls up  
Girls in the bathroom powdered they nose up  
The old ones thinking "Not one of them showed love  
Before we had dough got a wife at home"  
But the gold dust, keep calling them backwards  
Bankers, athletes, balling for practice  
Back seat, got a bitch, better than last week  
New freak shit is all part of the routine  
Modimo! girls keep swelling my ego  
Blockbuster nights and my life is lead role  
The fame change nothing about you, the fame change people around you

Riding with my gangster on  
Seat level and it really don't matter  
On my way to make her fall  
Last two was tryna get famous  
I just wanna play my part  
This game of snakes and ladders  
Only gonna make us strong  
Gonna make us strong
