Body gon' make you go crazy

Pull up in a four door  
Umkami, ng'zok' lobola (Ng'zok' lobola), uh  
I took her to the stolo (Stolo)  
She want the Louis V's, izambane la pondo, yeah

You already know the vibes  
It's a lot of clickbait, salt and spice  
Diamonds in the face, I shine you shine  
Made a lot of mistakes, gave me time  
When I lost faith you would say "It's fine"  
They cannot touch what God designed  
Go ahead, crush, so proud you mine  
This is real love, it's ride or die  
Touch me, squeeze me  
Make me believe in myself, it's fine  
When I was at my weakest, you sparked this fire  
God sent you to give me juice and ice  
Perfect combination, suit and tie  
Angel, halo  
See you in my dreams in porcelain white  
Main thing you taught me was "Don't reply"  
You already gave them a extra life
