

# Sunshine

AKA

Sunshower, just a sign of the power  
Of loving you, oh baby  
Sunshower, got me by the hour  
Wanting you, oh baby

And the beat goes on  
They don't really make it like this no more  
Skhot' so hard, bosso ke mang  
Everything good but I ain't D'Banj  
Work so hard everyday we span  
Party don't stop till I say we done  
Headshots and I'm toast  
Silver and gold  
Then you zone out, thinking how these situations unfold  
He probably throwing his dick around and I'm waiting up for his call  
Yeah this whole club so turned up nobody trying to go home  
Black cards, rap stars, these hoes trying to get choked  
I stay on my grind, you stay on my mind, spend my time

Wanting you, oh baby

Cause you are my sunshine  
All I need is my sunshine  
To come and warm up this lonely night oh  
My sunshine, you are  
That's right cause  
After it all  
Yeah into your arms I'm, gonna crawl  
After it all  
Yeah into your arms I'm, gonna crawl

My niggas got they cash right  
We been in a dungeon  
I'm talking bout that camp life  
Yeah that's that strength in numbers  
So one time for the spouses that Instagram they outfits  
Party at the Sands but the swag from the township  
My bitches bad, I usually tap no strings attached  
You take my hand we fall in love I just hope you can catch  
I take you on vacation, smoke Jamaican while you tan  
Even your friends hate it, they look at you with contempt  
Baby just dry your eyes, they can try all they like, but I'ma spend all my life

After it all  
Yeah into your arms I'm, gonna crawl  
After it all  
Yeah into your arms I'm, gonna crawl
