Akcent

Baby come
Just hold and stay in my arms forever
Show me now the love that s write on the stars
For us

And just when I feel life falling down
You pick me up right from the ground
They can't keep between us two
We're fall in love
They don't have a clue

Hear my soul
That call s your beating heart my love
Let's stop the fight
Cause I'm, I'm never right
You know

And just when I feel life falling down
You pick me up right from the ground
They can't keep between us two
We're fall in love
They don't have a clue
They don't have a clue
