## Akcent

I just dreams about we were ocean above
We were moving mountains, baby, we were in love
I don't know how, but baby, I fell for you
Now I can't live without you, baby, I'm still yours too
So I've fallen in love, yes I fell off deeply in love
We fly, all things above, yes I fell off deeply in love
So I've fallen in love, yes I fell off in love
We fly, all things above, yes I fell off deeply in love
I just dreams about we were oceans above
We were moving mountains, baby, we were in love
I don't know how, but baby, I fell for you

Now I can't live without you, baby, I'm still yours too So I've fallen in love, yes I fell off deeply in love We fly, all things above, yes I fell off deeply in love So I've fallen in love, yes I fell off deeply in love We fly, all things above, yes I fell off deeply in love So I've fallen in love, yes I fell off deeply in love We fly, all things above, yes I fell off deeply in love So I've fallen in love, yes I fell off deeply in love We fly, all things above, yes I fell off deeply in love
