

## Let's Talk About It

Akcent

Ohhh...I told you right from the start  
I don't wanna be the one  
Who's breaking your heart  
Noo...I'm not that kind that's givin' up  
Tell me if I'm crazy  
But you're everything I've got.

Ohh...let's just talk about it  
Ohh...let's just talk about it  
This song is about you  
So please come back home

Ohhh...Let's just talk about it  
I want you to love me  
Don't leave me alone.  
Ohh...let's just talk about it  
This song is about you  
So please come back home.

Ohh...you know what they say is true  
We will be just fine  
If you got me and I got you  
Noo...I don't need somebody else  
Baby all I need from you  
Is just a second chance.

Ohh...let's just talk about it  
Ohh...let's just talk about it  
This song is about you  
So please come back home

Ohhh...Let's just talk about it  
I want you to love me  
Don't leave me alone.  
Ohh...let's just talk about it  
This song is about you  
So please come back home.

Ohh...let's just talk about it  
Ohh...let's just talk about it  
This song is about you  
So please come back home

Ohhh...Let's just talk about it  
I want you to love me  
Don't leave me alone.  
Ohh...let's just talk about it  
This song is about you  
So please come back home.
