

## Lost in Love

Akcent

I'm lost in love  
With the stars above  
I found you at last  
My heart is beating fast  
I'm lost in love  
When the nights are cold  
Would you love me the same  
When our feelings get old?

(I'm lost in love  
I'm lost in love  
How do you feel?  
My love is real  
My love is real)

I think it's our karma, baby  
What happened in Goa, maybe  
You were singing out forever  
I remember, please remember  
I don't wanna live this drama  
And you know I'm not your mama  
[?] made  
It's a our fate, you're not fake

I'm lost in love  
When the nights are cold  
Would you love me the same  
When our feelings get old?

(I'm lost in love  
I'm lost in love  
How do you feel?  
My love is real  
My love is real)

(I'm lost in love  
I'm lost in love  
How do you feel?  
My love is real  
My love is real)
