

She Cries

Akcent

She cries all day, she cries all night
Her days like stars, so soft, so bright
And every drop an endless pain
A love she had but won't remain

I say yes, she says no
I say stay, she says go
She say hope, I say gray
A love that breaks into the night

She cries all day, she cries all night
Her days like stars, so soft, so bright
And every drop an endless pain
A love she had but won't remain

She cries all day, she cries all night
Her days like stars, so soft, so bright
And every drop an endless pain
A love she had but won't remain

Won't remain
Won't remain

I say yes, she says no
I say stay, she says go
She say hope, I say gray
A love that breaks into the night

She cries all day, she cries all night
Her days like stars, so soft, so bright
And every drop an endless pain
A love she had but won't remain

She cries all day, she cries all night
Her days like stars, so soft, so bright
And every drop an endless pain
A love she had but won't remain
