On 85 getting head with my top off

Moving slow in this McLaren so they all can see me  
Nigga waiting out of tune, shit is so easy  
I'm living life, I'm on top of mine  
And there's nobody here on Earth could ever stop my grind  
Say slow money, it's better than make it none at all  
So I'm taking my time because I'm need it all  
Paper chasing, getting money you on another level  
But still I'm rocking with them goons and them fucking rebels  
Ain't a movie a spril life, I really live it  
If you heard me talk about it then I probably did it  
Real talk slow down take your time homie  
Go hard, go home when it's time homie

I like a life skin bitch 5-4  
Got my true religions on with the bank roll  
Got your girl live long like a feel go  
Real dough, I give dough  
That 72 Chevelle made me feel hoe  
Behold, say I've conceded  
In my ever bullshit and no need me  
Kill me on the east with a lot of two little spices and some jolly rinces  
All black cars like the fucking black pimpers  
I smoke so many poes that I might catch cancer

Keep slurring keep pawing swerving out of control  
Stevie Wonder's own eyes damn near closed  
Rockin' native, thigh slidin' on them dudes foes
