

So Rough

Akon

My dawg he got me if I'm jammed up
I put that smoke in the air if you play wit him
If it's smoke wit me, ion even gotta say it there
See this life living hell anything fair
Ain't no rules to this shit, growin old rare
In this fast life mind onna 100 playa
Like a demon slayer can't nun stop a nigga
They tryna block a nigga
Black ball and drop a nigga
But I can't go like dat I'd die before I turn whack
I'm eatin' every track, don't care bout who listening
I know they listening, tell the haters listen in
They only hatin' on a nigga cuz I'm different man
We like the minute men
I'm just livin' till I'm dyin'
So much shit up on mind
I can't stop not anytime
Death is hot on my behind
Tell 'em catch up he behind
I'm not scared of losing mine
Came alone I'll leave alone
Don't worry bout me I'll be fine
Everything is like a sign
Universe be talking to you off dem drugs you think you flyin'
You was first to pop shit wit me anyday for you slidin'
It's amazing that I met you, we won't ever grow apart
I'll be damned if I don't bless you, you was wit it since the start
All the shit a nigga been thru I don't know where I should start
Writing raps all in the dark
Beat my case I'll beat the odds
Crackers think a nigga odd
She my dawg, she my rod
She my rod

No my life ain't easy, I ain't giving up
The ones that I love, I promise we goin' up
Time I've been down I know you'll pick me up
It's so rough so rough so rough
It's so rough so rough so rough
It's so rough so rough so rough

It was rough for a nigga like me
When you're up niggas turn sheisty
Be your own blood leave you on the IV
Seen it all, don't nothin' surprise me
Now I'm at the mall cop whatever I see
And my neck icy
Tell em "yes" they'll never go
People start to disappear when you tell 'em "no"
I swear this life be crazy complicated
Jealousy, the envy and the hatred
Use the struggle as your motivation
Been through ups and downs but look I made it
Look, I was grindin'
From the hood I prayed I'll survive it
All the mamas crossed stop the violence
Homicide, homicide, cops arrivin'

And it gets hard for real
Every player don't survive the field
Don't crash out when you 'hind the wheel
Don't crash out, read the signs
Take your time and use your mind for real
All my kids make me smile for real
I know ya'll know I'm proud for real
Whole world know that I'm proud
Take my crown, shut it down, for real
Shut it down, for real

No my life ain't easy, I ain't giving up
The ones that I love, I promise we goin' up
Time I've been down I know you'll pick me up
It's so rough so rough so rough
It's so rough so rough so rough
It's so rough so rough so rough

No my life ain't easy, I ain't giving up
The ones that I love, I promise we goin' up
Time I've been down I know you'll pick me up
It's so rough so rough so rough
It's so rough so rough so rough
It's so rough so rough so rough
