

I Stand Alone

Al Kooper

I stand alone

Cant nobody make me change my mind about my love

So many people tryin' to bring a good thing down today

Ya know it's down on the ground

Before it's had a chance to get away

I stand alone

In a world where people wheel ya this way, deal ya that

I tried so very hard to win her love for me

Cant nobody take me where I don't wanna be

Love of my life I feel so much love for you

That's why I stand alone and do the things I have to do

I have never been so much in love as I am today

And tomorrow - I know tomorrow

I'll stand alone
