And I can feel these strings of warmth encircling me  
What can I do, what can I say, honey  
You've taken all my reasons to be free  
Such soulful shackles around my heart  
That I have no will to break  
What can I do, how can I move  
I'm caught and there's no escape

Here inside your love trap  
I cannot move a muscle  
Here inside your love trap  
I ain't gonna put up no fuss I'll stay here willingly  
Cause all this love is killing me with tenderness  
Mama Mama I love it

In times gone by I used to yearn for every smile I saw  
And in their arms I'd taste their charms  
Oh but never nothing more  
Until you came into my life with your weaving magic spell  
And in your hands this lucky man  
Is like a prisoner inside a cell

Here inside your love trap  
I cannot move a muscle  
Here inside your love trap  
I ain't gonna put up no fuss I'll stay here willingly  
Cause all this love is killing me with tenderness  
Mama Mama I love it
