

If They Ring Your Bell

Alabama 3

Danny took a drive on the wrong side of midnight
Ten minutes later there's a blue light flashing in his retina
Never should've listened to Loretta
Business took a dive on account of the curfew
The kilos ain't shifting on account of the surplus
Don't you party you'll only alert the authorities

If they ring your bell
Will you be able to tell
The difference between
A little bit of heaven
And a whole lot of hell

Danny put his foot down on the accelerator
Sat nav kicking in talking in
Talking Croatian
Up against the wall
Down on all fours on the pavement
Loretta started sweating
Under interrogation
She got no appetite for investigation
Take those kids
Her behaviour changes
In the meantime

If they ring your bell
Will you be able to tell
The difference between
A little bit of heaven
If they ring your bell
Will you be able to tell
The difference between
A little bit of heaven
A whole lot of hell

If they ring your bell

If they ring your bell
Will you be able to tell
The difference between
A little bit of heaven
And a whole lot of hell
