

# Lockdown

Alabama 3

I'm gonna put another dollar in the jukebox baby  
You ain't coming home  
Whoop, whoop, whoop was the sound of the police  
Blue lights in the red light zone

We're too long baby  
It's been drivin' me crazy  
Let my lady use the telephone  
But hush now child, you just close your eyes  
Smile, remember what I told you

You're on lockdown, you're loaded but I love you  
All the stars in the night burn bright for you  
You might never see 'em  
But I Just keep on dreamin'  
You're on lockdown, you're loaded but I love you

You never should have trusted your cousin Jane  
I see him dancing with the government man  
Well, the radio reception was weak and ineffective  
But they heard you whisperin' 'bout a plan

You're on lockdown, you're loaded but I love you  
All the stars in the night burn bright for you  
You might never see 'em  
But I Just keep on dreamin'  
You're on lockdown, you're loaded but I love you

Bailed you out in DC and Baltimore too  
I didn't see you for a week or two  
After you got out of jail when I finally did  
You were with this guy, in fact he wasn't a guy, just a kid

And I thought I'd rue the day that I met a woman like you  
But I loves you and you know that I do, yeah

Every disco you could raise the roof  
Walk into a poolhall past all those brown-eyed boys black and blue  
Always walk so strange through the thunder and the rain  
I knew you'd always take me back to you

An' I hear you singing

You're on lockdown, you're loaded but I love you  
All the stars in the night burn bright for you  
You might never see 'em  
But I Just keep on dreamin'  
You're on lockdown, you're loaded but I love you

You're on lockdown, you're loaded but I love you  
You're on lockdown, you're loaded but I love you  
You're on lockdown, you're loaded but I love you  
You're on lockdown, you're loaded but I love you  
You're on lockdown, you're loaded but I love you  
You're on lockdown, you're loaded but I love you
