

# The Lord Stepped In - Taking Back Control

Alabama 3

Don't let 'em for one moment  
Alright now

Don't let 'em for one moment  
Alright now

The troops came marching in  
Locked down this city of sin  
Made us stand up and sing  
Sweet hosannas  
The saints went marching out  
Left us in no doubt  
We can still bang them out  
On old Joanna's  
There ain't no point in praying  
If you ain't gonna be staying  
In your mansion chanting mantras  
After midnight  
No point singing hymns  
Unless everything you sing  
Got your congregation ready for a riot

That's when the Lord stepped in  
That's when the Lord stepped in  
That's when the Lord stepped in  
That's when the Lord stepped in

The President decreed  
All the people really need  
Is a regular drip feed a hit of dettol  
Now the toilets are never clean  
Daddy stinks of mr sheen  
There's a hole in mamas arm where all the bleach goes

That's when the Lord stepped in  
That's when the Lord stepped in  
That's when the Lord stepped in  
That's when the Lord stepped in

A hymn a day  
Keeps the doctor away  
A hymn a day  
Keeps the doctor away

That's when the Lord stepped in  
I'm taking back control  
That's when the Lord stepped in  
I'm taking back control  
I'm gonna take you down the river right now  
Wash away your germinations, your vaccinations  
Your salavations, from nothing  
Take you down the river now

That's when the Lord stepped in  
I'm taking back control  
That's when the Lord stepped in  
I'm taking back control

That 's when the Lord stepped in  
That 's when the Lord stepped in  
That 's when the Lord stepped in  
That 's when the Lord stepped in  
That 's when the Lord stepped in  
That 's when the Lord stepped in  
That 's when the Lord stepped in  
That 's when the Lord stepped in
