

## Tranquilize Yourself Britannia

Alabama 3

She turns up on the quiet at my surgery  
Stacking up on opioids and she never pays the fee  
She has a habit that would kill a horse stone dead  
She fixes up right there in my room  
Gets so high I have to scrape her off the roof  
She starts to dribble starts babbling too  
She's the Queen of England what can I do  
She says if I say I word I won't live too long  
Like that kid Diana so I do what I'm told  
Sometimes she tells me things no one should know  
I gotta keep writing keep her turned on  
Nothing I can do until maybe she OD's  
And dies

So I got Big Phil coming down today  
And he wants medicating too  
Most of the time he comes over  
Cos he's got nothing to do  
Amphetamines are his thing right in the mainline  
One minute quiet the next verbose  
On and on he goes just talking shit  
But he wants to hang out and be my friend  
And I gotta sit there listening until maybe  
He has a heart attack and dies

The doctor smiles like Jeremy Kyle  
Says hello madam take a seat  
I got 5 minutes to diagnose you  
Convince you I can get you healed  
Take one in the morning two in the evening  
Your situation it ain't unique  
If your condition don't improve  
Then maybe we'll move you to a higher dose next week

Blaze, blaze away the pain  
From empire to opium  
From cradle to the grave  
Blaze, blaze away the pain  
From opium to empire  
Forever we are slaves

Your boys missing school he's been labelled a fool he got ADHD  
Well a Ritalin script just might help him fit  
Back into the community  
If ends upside doing his time  
High on spice and rolling his eyes  
Well keep him alive with some Vicodin

Tranquilize yourself Britannia  
Welcome to the pharmacy  
And the doctor to the queen  
Tranquilize yourself Britannia  
Welcome to the pharmacy  
And the doctor to the queen
