

Future People

Alabama Shakes

Some want to see
those who've gone above
friends that they've lost
people they've loved
I'd rather meet the me
on down the road
to lead me through the fog
wouldn't ask for more

Children, take or leave it
come people you got to
give a little, get a little
and see it
like future you people

Some things could be
seen from above
thread of design
don't trip me up

Children, take or leave it
Come people you got to
give a little, get a little
and see it
like future you people

Listen to teacher
imagine the sound
and listen loud and then
you'll reach the top
