Clear Water Blues

Clear water blues Thinkin' of you Sittin' here fishin' Catchin' a few Spendin' my days Just tryin' to lose These clear water blues

Clear water blues Driftin' along Nowhere to go Now that you're gone My lonely heart Don't know what to do With these clear water blues

Lookin' out across the ocean Blue is all I see And it seems like no matter How far I go Your memory just won't Set me free

Clear water blues Won't leave me alone Keeps on remindin' Me why you're gone My reflection Is showin' a fool In these clear water blues

Clear water blues Still thinkin' of you Sittin' here fishin' Catchin' a few Spendin' my days Just tryin' to lose These clear water blues These clear water blues...
