It Works

Alabama

He rattles his glass, she jumps up fast And pours him a glass of tea Deep in her heart she believes That's the way it should be

Yeah, and I've seen my dad get fightin' mad Over one little four-letter word He'll tell you fast you don't talk Like that around her

We may not see it the way they see it We may not do it the way they do it But she lives her life for him, he'd gladly die for her And even in this modern age, it works

Though he's been down in his back

He still jumps out of that sack every mornin' at 5 a.m.

Havin' her home with the kids

Has been worth it to him

Yeah, and she takes pride in bein' his wife And making their house a home And sometimes she wishes the world Would just leave them alone

We may not see it the way they see it We may not do it the way they do it But she lives her life for him, he'd gladly die for her And even in this modern age, it works

If the good Lord's willin'
There will come a day
When our children will say

We may not see it the way they see it
We may not do it the way they do it
But she lives her life for him, he'd gladly die for her
And even in this modern age, it works
Even in this modern age, it works
