Small Stuff

Alabama

There's a little cafe' on the corner of town
Lucy works there 'til the sun goes down
It ain't very much but she brings home
The bacon and the bread
We got a mortgage we pay just a little bit on
But it seems like all of our money is gone
Before we get a chance to get ahead
That's small stuff, we don't sweat the small stuff

Why worry about the mortgage and the minimum wage
Traffic and the taxes and the coming of age
Small stuff
There's a comfort in the knowing there's a spirit in us
Giving us the courage and the wisdom to trust
In a love that's so much greater than all the small stuff
So we don't sweat the small stuff

There's a little bitty hole in the ceiling above
Sometimes the rain drips down on our temple of love
We have to put a pot smack dab in the middle of the bed
Somebody hit my car at the diner last night
Had to drive it home with one taillight
When I went out this morning, the engine was dead
That's small stuff, we don't sweat the small stuff

Why worry about the mortgage and the minimum wage
Traffic and the taxes and the coming of age
Small stuff
There's a comfort in the knowing there's a spirit in us
Giving us the courage and the wisdom to trust
In a love that's so much greater than all the small stuff
So we don't sweat the small stuff

There's a little cafe' on the corner of town
Lucy works there 'til the sun goes down
And she don't sweat the small stuff...
