

# Strip Now

Alain Bashung

Not time left for wheeling and dealing, kid  
Say, it's day for night

If you wanna strip, you strip now  
While there's no one watching watching you

She still says  
Brother can you spare a spliff  
Got the picture  
Soon you'll be out and soon you'll be stiff

But if you wanna strip, strip now  
While there's no one watching watching you  
You you you

With whistling wheels  
Who will give a damn  
She had nothing to score again  
Or doors to ram

But if you wanna strip, strip now  
While there's no one watching watching you  
You you you

China is all English  
What is your picture tell me what makes move  
What makes you tick

If you wanna give, you give now  
Oh there's no one watching watching you

Party girl leave fingerprints  
Want to watch  
The top of the top  
Give another chocolate chip  
Come in fourteen flavors

Come, there's no one watching watching watching you

Lonely lonely tonight we flirt  
There must be a way to shower all the dirt

If you wanna strip, strip now  
While there's no one watching watching you  
You you you

Lonely lonely  
Hold my hands  
You got styles  
Don't wear no lipstick and

If you wanna strip, strip now  
Oh there's no one watching watching you  
You wanna strip, only lonely  
You wanna strip, only lonely
