

Well All Right

Alain Bashung

Well alright
So I'm being foolish
Well alright
Let people know
About the dreams and wishes you wish
In the night when lights are low

Well alright, well alright
We will live and love
With all our might
Well alright, well alright
Our lifetime love
Will be alright

Well alright
So i'm going steady
It's alright

When people say
That those foolish kids
Can't be ready
For the love
That comes their way
