

Feels Like I Lost You

Alain Clark

No longer know if what you say or feel is even real
I don't recognize the look that's in your eyes.
I don't want to guess what you were going through, but I wish I knew
The color move, the picture in your mind.

Have you decided you belong here?
Hang on the door
Are you about to say, I love you?
But not like before
Or is all together gone?

Chorus:
Feels like I lost you
Baby, it kills me
Thoughts in my head, girl
Right now they feel me with emptiness
Nothing but emptiness!
Only with emptiness!

I tried to hold on to my memories,
But the familiar melodies no longer sound the same.
And when I sing the words we always sang
Somehow it all amounts to something I don't understand.

Have you decided where your heart is?
High in the clouds
Is there a face to whom you always
Dreaming about?
I'm still the one you say
But it don't feel that way!

Chorus:
Feels like I lost you
Baby, it kills me
Thoughts in my head, girl
Right now they feel me with emptiness
Nothing but emptiness!
Only with emptiness!

Girl, I sit and wonder why (sit and wonder why)
Somebody's slip me by,
Somebody's slipping me by
It's all that it takes
For astral love to break, no
You gotta let it out, babe
The truth is that I doubt, babe,
I'm not gonna lie,
You better know I cry!

Feels like I lost you, baby
Feels like it,
Yes I did!
Losing my mind
Losing my mind, babe
Feels like I lost you
I lost you!
Nothing inside me

I lost you!
Nothing inside
Oh, oh, oh!

Chorus:
Feels like I lost you
Baby, it kills me
Thoughts in my head, girl
Right now they feel me with emptiness
Nothing but emptiness!
Only with emptiness!
