

# make it rain

Alaina Castillo

Destination  
Out of this hell tryna find my safe haven  
Complications  
Choking me out  
'Cause of death suffocation

I'm that sad bitch smiling in the mirror  
I got bad bitch energy and I hear her

Better make it rain  
Throw a billion dollar bills up in the pain  
Get them million dollar deals it finna change  
Won't switch up on my way, I'll make it out someday  
And finesse all the stress getting paid  
Better make it rain  
Throw a billion dollar bills up in the range  
Couple million in the hills and run away  
Won't switch up on my way, I'll make it out someday  
And finesse the depression away  
Better make it rain

One day  
Not gon' be pressed as I jet from the runway  
High grade all day  
My head is there I'm just standing in the wrong place

I'm that sad bitch smiling in the mirror  
I got bad bitch energy and I hear her

Better make it rain  
Throw a billion dollar bills up in the pain  
Get them million dollar deals, it finna change  
Won't switch up on my way, I'll make it out someday  
And finesse all the stress getting paid  
Better make it rain  
Throw a billion dollar bills up in the range  
Couple million in the hills and run away  
Won't switch up on my way, I'll make it out someday  
And finesse the depression away  
Better make it rain

Better make it rain  
Make it, make it rain  
Better make it rain  
Make it, make it rain
