Rockie burned up the movie screen and I was turnin seventeen Tie-dyed shirts and Levis jean, lookin cool at the Dairy Queen Tryin to impress a young woman in her Sunday dress

And that was 1976, didnt know who I was yet

A pretty little blonde haired girl stole my heart and changed m ν world

Two kids and a moonlit sky, a little love on a Friday night Built a fire that just wont quit, that was 1976

My high school days I packed away, set my sights on a bigger st age

Jimmy Carter moved to DC, a Georgia boy just like me, life seem ed easy

Nothin much that we needed

That was 1976, didnt know who I was yet

A pretty little blonde haired girl stole my heart and changed m y world

Two kids and a moonlit sky, a little love on a Friday night Built a fire that just wont quit, that was 1976

And that was 1976, didnt know who I was yet

A pretty little blonde haired girl stole my heart and changed m y world

Two kids and a moonlit sky, a little love on a Friday night Built a fire that just wont quit, that was 1976
