

## Break Out The Good Stuff

Alan Jackson

I don't need Havanna cigars  
Fancy C-cars or premium beer  
I smoke whatever's cheap  
Keep my ol' gas heater and drink what's here  
Oh, the finer things in life don't thrill me much  
When it comes to love, when it comes to love

I go home and break out the good stuff  
All the good love is waiting for me  
Anything less than her ain't nearly enough love  
So I go home and break out the good stuff

I could keep another lover undercover  
She'd never know  
But everything I long for  
Is right behind my own door and I love her so  
And when that loving feeling gets to me  
There's just one place I wanna be

I go home and break out the good stuff  
All the good love, waiting for me  
Anything less than her ain't nearly enough love  
So I go home and break out the good stuff

I go home and break out the good stuff  
All the good love, waiting for me  
Anything less than her ain't nearly enough love  
So I go home and break out the good stuff

Yeah I go home and break out the good stuff  
All the good love, waiting for me  
Anything less than her ain't nearly enough love  
So I go home...
